### **MESSAGE FROM CHAIRPERSON**

Human Rights and Environment Development Centre (HuRENDEC) is a leading non-profit making non-government organization (NGO) working to uplift rural livelihood and public awareness and environment friendly rural infrastructure through various interventions. The organization has historic success in terms of policy advocacy, awareness against social

discrimination & inequality, human rights, climate change, disaster management, capacity building etc. since establishment. By this time, we have completed about 30 projects in Karnali region and conducting various other project with the coordination and cooperation of stakeholders.

In order to achieve the goals and objectives specified by the organization, activities related to community with equal opportunities, healthy, educated, dignity and a high standard of living will be the motive of the organization. Also, building a foundation for upgrading in the development of a society with a high income level will be the priority of the organization.

As we know the 2022 was a year where we successfully completed 27<sup>th</sup> year of the establishment and reaffirm our commitment for social and economic development, environment protection, sustainable utilization and support to Nepal Government's 15<sup>th</sup> periodic plan as well as sustainable development goals (SDGs). In 2022, we made a substantive contribution to benefit the child, youth women from vulnerable, marginalize, Dalit, janjati and resource dependent people through the efforts of our team by implementing the project effectively. We thanked the partner organization -tdh/BMZ Germany, Mercy Corps/USAID, UN/WFP, IWRMP/HELVETAS, TBSU/HELVETAS, Plan International Nepal, and Red Panda Network for their continuous support to organization. Similarly, we acknowledged to Nepal government for their kind cooperation, collaboration and support.

As usual, HuRENDEC has developed an annual report-2022 with the effort of the organization and project team for informing progress to our well wishers and stakeholders. I would like to extend my gratitude to our active members, partners, program director, project coordinators, staff and well-wisher for their continuous support. I believe the coming years will also give us another better opportunity for collaboration towards achieving our common goal on 'Prosperous Society and Happy Citizen'.

Jaj Raj Shahi Chairperson

### FOREWORD

Human Rights and Environment Development Center (HuRENDEC) Nepal is pleased to present the annual report of HuRENDEC including success stories which are generated through the project endeavor. This report covers the period from July 2021 to June 2022 and highlights the annual activities and achievements. We have published this report as a regular basis and expected to present organizational annual status and its achievement to its all stakeholders. We have tried our best to make the report as short and simple as possible so what runs throughout the pages is not the project reporting.

This year, we had implemented different activities that support to achieve the organizational goals. Major achievement regarding the structure like resource centers, multipurpose centers, nurseries and irrigation cannels are established. The income generating activities based on resources are also the key indicators for the livelihood enhancement of beneficiaries. Similarly, HuRENDEC organizational capacity to implement the diverse actions has also increased this year. The team has become more capable with diverse expertise and increased collaboration with various stakeholders based on the themes. Our capacity to facilitate field action, documents them, publish and engage with government sector and stakeholders have become even more effective.

I would like to thank for encouragement and guidance from our development partners, local government, local community people, and our district partners. We sincerely acknowledge that the credit for the achievement of all projects mainly goes to the staffs, community people youth members, local FM radio/ media. Besides, key stakeholders at district such as the DAO, DCC, R/ municipality, CSOs and political parties play a key role in contributing to the success of HuRENDEC and its projects. I would also like to acknowledge the support of the executive committee of HuRENDEC, whose continuous strategic direction and support has been instrumental in achieving the success.

Once again, I would like to thank all the development partners, stakeholders, community people, staffs and well-wishers for their support, trust and cooperation, and look forward to feedback.

ubedi

Bharat Mani Subedi Program Director

# **OVERVIEW**

Human Rights and Environment Development Centre (HuRENDEC) is a leading non-profit making Non-Government Organization (NGO) established in 1997 AD and registered in Kalikot district, Nepal. Since its establishment, the organization is working to uplift rural livelihood and public awareness through various interventions with support from different stakeholder and donors. HuRENDEC primarily have expertise on social mobilization, program implementation, policy advocacy and program monitoring. HuRENDEC also have experience on climate change adaptation and mitigation approach which is major theme of HuRENDEC to address issues of climate vulnerable groups.

HuRENDEC has been working on need-based action oriented multi-disciplinary areas through social mobilization especially focusing on Human Rights, Lobby and Advocacy for the rights of women, children and socially disadvantaged groups. Relative to time, it has been conducting the project by determining the core areas like livelihood, micro enterprise development, good-governance, climate change, disaster Risk Reduction, Rehabilitation/ Recovery Response, Natural Resource Management and Environment friendly rural infrastructure, Sustainable Utilization of (natural) Resources, Promotion of Renewable Energy Technologies, climate change adaption, children, adolescent, women and empowerment in a comprehensive way.

HuRENDEC has just stepped for awareness campaign and some of the activities of livelihood in initial phase. As the time passes, it took a rhythm of new ideas as well as burning issues. Over the years, HuRENDEC has been successful in developing and transforming itself to a professional organization that is able to carry out development projects independent of any political, religious or racial considerations and in striving for sustainable results enriching equitable benefits to its target groups. HuRENDEC has successfully implemented more than 30 projects, multiple professionals with diverse background and their support is crucial to complete all program and projects.

HuRENDEC has served to 205,980 disadvantaged, marginalized, underprivileged people from 28,305 households of Karnali Region. HuRENDEC has supported 29,750 women and men (from below poverty line and marginal subsistence households) in improving their life standards through agro-based micro enterprise development activities. 2,975 vulnerable children are re/enrolled to school for formal education and mobilized in awareness raising activities formulating child clubs.

HuRENDEC has strong linkage and collaborations with local government, government line agencies, other NGOs and private sector organizations at local, province and national level. HuRENDEC is associated with various networks and associations which are important for institutional linkages, exchange of information and knowledge like NGO Federation, Collective Campaign for Peace (COCAP), Human Rights Alliance, District Water Sanitation and Hygiene Coordination Committee and District Disaster Management Committee. The organization has partnership with several development partners like UNDP, HELVETAS Swiss Inter-cooperation Nepal, EU, terre des homes Germany, BMZ Germany, TDH Netherland, World Bank/ PAF, Simenpuu Foundation Finland, DFID/RDIF, UN WFP, Plan International Nepal and Mercy Corps.

Support technology and techniques for value addition and marketing of the products Conduct and celebrated various national and international days for conservation and protection and festivals for the cultural development

### I. LEAD AND DECIDE PROJECT

Location: District (Municipality/ Rural municipality)	Kalikot (Sannitriveni RM, Naraharinath RM and Raskot M)
Duration	July 2021 to June 2024
Budget/Amount	NPR. 4,323,958.00 (Annual)
Beneficiary Population:	1162 (F-615, D-287, Disable-11)
No. of CBOs/HHs M/F	10 CoCs
No of Project Staffs	4
Development Partner	Plan International Nepal

### **Background:**

This program is mainly focused on mainstreaming GEDSI particularly girls, adolescent, disable and socially excluded group. The objective of this project is to ensure sexual and reproductive health and rights of girls, adolescents and young women. The outcome of the program is that the girls and young women lead change, have control over their bodies and make informed decision about their lives.

### **Major Activities**

Awareness campaign, capacity enhancement training, COC formation and functionalization, Assist local government for policy formulation, IEC material production and joint monitoring

### **Major Achievements**

- Level of awareness is increased on SRHR and CEFM among CoC participants, CoC management committee, girls, adolescents, parents and community people (CoC participants standing in front position at school level extra-curricular activities/ actively participating in discussion in various forum at community level)
- Child marriage cases are stopped through the initiation of CoC participants (6 in Raskot, 2 in Sannitriveni and 2 in Naraharinath)
- Capacity enhancement of youth/ adolescents/ parents/ CSOs on SRHR/ CEFM/SBCC and SCYP. (Male-2024 and Female-2925, Total-4949)

Girls Takeover Program Sannitriveni RM

 Initiative action by CoC participants against girls trafficking (rescued 4 girls of Raskot municipality)

- Endorsement of youth participation guideline at Naraharinath RM, Sannitirveni RM and Raskot M through our regular effort by lobby meeting, workshops, coordination and communication
- Awareness level raised for decision making of girls, adolescents and young women on SRHR and families, community, CSO also showing their solidarity on it.
- Adolescents and youths are capacitated and abled to demand stigma free SRHR services after our intervention. (adolescents girls-118, boys-92; total-210 received SRHR service from health post)
- Mass awareness created on CEFM, SRHR, harmful and discriminatory social norms by radio program (regular FM program broadcasted in the name of Paribartan ka Sambahak)

### **CASE STUDY**

#### Darpana Luwar: An Example of Adolescents Social Campaigner

Darpana Luwar, 17 years old, inhabitant of Raskot Municipality ward no-2, Kalikot, is an active member of Champion of Change (CoC) under Lead and Decide Program launched by HuRENDEC with the support of Plan International Nepal.

Before the project intervention, she was very introvert and have no confidence to speak in crowd and even hesitate to share her feelings with her family. She got a stomach aching problem during her menstruation period regularly but

she couldn't share about it to her family members and even hesitate to share with health service providers due to fear of stigma and social taboos. Despite of these problems, she used to engage in household work adhering the pain.

After the project intervention, she joined in CoC classes, got opportunities to gain the useful knowledge in her daily life. She learnt about child rights, girls, youths and adolescents, gender discrimination, harmful social norms and values, defects of CEFM, adolescents sexual and reproductive health and rights etc. and gradually she improves herself with strong confidence. Meanwhile, she got opportunity to be participating in girl takeover program, online safety training to youths, Deuda lyrics performance in many functions at community level as well as WoW festival, Lumbini. Now, she works as campaigner to raise the awareness to reduce the issues of CEFM, SRHR, harmful and discriminatory social norms and values. Now She thanked to the organizer to broaden her eyes of knowledge and horizon of life.

# II. GIRLS GET EQUAL: PREVENTING CHILD, EARLY AND FORCED MARRIAGE (PCEFM) PROJECT

Location: District (Municipality/ Rural	Kalikot (Sannitriveni RM, Naraharinath RM and
municipality)	Raskot M)
Duration	July 2019 to December 2024
Budget/Amount	NPR. 17,886,780.00 (Annual)
Beneficiary Population:	2850 (F-1445, D-644, Disable-128)
No. of CBOs/HHs	10 CoC
No of Project Staffs	6
Development Partner	Plan International Nepal

### **Background:**

This program is focused to prevent mal practices in the community. The main objective of this project is to get girls equal. However, the specific objectives are to retain girls in schools, to provide economical opportunities for girls and families at high risk of CEFM and knowledge of SRHR among adolescents, to embrace norms that value the girl and support girls and boys to delay marriage and to contribute to make responsible duty bearer particularly local government to prevent and respond to child rights violations especially CEFM

### **Major Activities**

Awareness campaign, capacity enhancement training, COC formation and functionalization, promote entrepreneurship activities, Assist local government for policy formulation, IEC material production and monitoring

- Adolescents, young, families and community people are being sensitized on harmful social norms through interaction program, meeting, dialogue and training and the cases of menstruation mal practice, discrimination between son and daughter (caretaking, fooding, education etc.) are decreasing.
- Adolescent girls and young women are conscious about MHM after dissemination the information on good MHM practices through interaction meeting/trainings and SBCC materials. (use of sanitary pad increased and school absent decreased during menstrual period)

Enhanced knowledge of girls, adolescents and young women on SRHR. Hence, the positive sign is appearing in our program area i.e. adolescents girls are demanding stigma-free SRHR services without hesitation. (After training to health service providers on stigma-free SRHR, adolescents friendly and gender responsive, CSE training to teacher, school's advocacy capacity building training to adolescents on stigma-free SRHR)

- high vulnerable adolescents girls who were at the high risk of child marriage were got counselling and linked into women cooperatives for their economic development and better future (244 Nos.).
- Vulnerable adolescents girls have got loan from cooperatives for income generation activities. (50 Nos.)
- 1265 adolescents received information on SRHR through our project activities and intervention (Female-715, Male- 550, Disability-91, Dalit- 297)
- Teachers taking additional class on CSE/SRHR after 78 Educational staffs/teachers trained on CSE/SRHR from all three project Palikas.
- Developed 3 Model CoC centers with technology at working palikas (one in each palika)
- Interaction Workshop with Journalist (2 events) in Manma so that they disseminating the information on CEFM, SRHR and other harmful social norms
- Running the CoC classes through 10 CoC centers comprising all program palikas.
- CoC participants were excited to join peer to peer education and organize extracurricular activities in their school as well as community.
- CSE/SRHS was provided to 20 members of cooperatives from three Palikas and they have started awareness session on CSE/SRHR to their cooperatives members in their palikas.
- After onsite coaching training, group management training, account training, logistic support and cooperative management training, they are capacitate to run their cooperative smoothly.
- Among the 7 adolescents girls 2 of them who were participated in tailoring training of 390 hrs has started their own business.
- 386 girls and boys received support to develop and implement action plans and economic empowerment training on gender equality, child rights and CEFM.

 Media mobilization for raising awareness against the discriminatory and harmful social norms and values.

# **CASE STUDY**

#### Chhaya BK: A Symbol of Good Entrepreneurship

Chhaya BK, a resident of Mumra Village of Shannitriveni Municipality, ward no 9, Kalikot is now 18 years old. Her birth is in a normal family but the problem of eye is her bybirth. She could not carry heavy things and difficult to walk after sunset. She is studying in class 10 at Sri Danfe Secondary School, Mumra and she used to support her family in house work as well as in farm after her school. There are 9 members in her family and the main occupation of her family is farming.

Chhaya BK was an ordinary teenager. She was in the grip of poverty and financial

problems but her current situation has changed. The collaboration with Plan international Nepal and Human Rights and Environment Development Center (HuRENDEC) has been implementing a project Preventing Child, Early and Forced Marriage (PCEFM) in which she is involved in Laligurans women development saving and Credit cooperative facilitated by the project. She has been changing herself by participating in various program conducted by the project and get a knowledge and capacitate in COC (Champaign of Change), Leadership Development, Capacity Training, orientation on Reproductive Health Rights etc.

After participating in various program conducted under this project, Chhaya BK choose and decided to do retail business. The reason behind selecting this business is to meet the demand and supply of local people. According to her interest, she was awarded the various materials costing Rs. 20,000 by Provide start up support to survivors and highly vulnerable young women (to CEFM) to start the income generating activities in December 2021. Since then she is continuously doing her business and managing her education as well as other cost. She earns nearly 10–12 thousand in a month but her expectation and request to project is to support her eye to be visualize clearly even in night time.

# III. BUILDING HOPE ALONG WITH KARNALI RIVER BASIN (BHAKARI)

Location: District/Municipality	Kalikot (Suvkalika RM, Khadachakra M, Mahawai RM, Naraharinath RM and Tilagufa M)
Duration	October, 2020 to July, 2023
Budget/Amount	NPR. 44,169,322.00 (Annual)
Beneficiary Population	3302 HHs and 18207 Population
No. of CBOs/HHs M/F	35 Farmer groups, 52 CDMCs, 14 WUGs and 38CFUGs
No of project staff	24
Grantee/Donors	USAID/ Mercy Corps

#### **Background:**

The program is integrated into different components like livelihood, climate change, resilience, DRR, emergency support and GESI. The main objective of the program is to enhance food and nutrition security, reduce future humanitarian caseload and improve the resilience of communities to recurrent shocks in Kalikot district. The program has a Multi-Year Emergency Food Security Activity. There are mainly 6 thematic areas viz. Agriculture, Productive water, Disaster Risk Reduction, Natural Resource management, Emergency Response and GESI under which we are conducting different activities.

### **Major Activities**

Infrastructure building like irrigation canals, ponds, drinking water learning centers building, agriculture support, income generation activities, capacity enhancement, DRR related activities; assist to local government for policy/ guidelines formulation, IEC materials publication and dissemination.

- Got great opportunity to work as District Lead Support Agency (DLSA) from local District Administration
- Facilitated local government to make Disaster Preparedness Response plan (DPRP) in 5 Palikas and 1 at district and supported DRR related items to local government
- Local people (210) benefitted from building 6 Learning Centers
- Local people (3006) are benefitted from irrigation canals,

- 4 nurseries constructed and functionalized
- Our 38 beneficiaries were elected in local government in which 4 are from women
- 979 HHs benefitted through value voucher

# CASE STUDY

#### **Effectiveness of CADRE Training**

Mr. Jagat Damai-33, is a resident of Sanobalichaur Tilagupha municipality-6, Kalikot. He is a youth social server of community and belong to the Dalit community. He is serving various sectors like social, economic and right to live with dignity, among them is the major BHAKARI way to serve people. He is a member of Palika level Task force of Tilagupha Municipality. In Feb, 2022 BHAKARI program conducted the CADRE training to municipal level task force in Tilagupha

Municipality. He is also one of the participants of the training.

On 11 March, 2022 Mr. Lok Bahadur Damai (Louke) is an artist and singer who has sung many Hudkeli songs. He was resident of Sarkibada Rautbada, Tilagupha municipality -3, was returning Kamkhet from Galje, coincidently he fell down 300 meter ridge and died in the spot at 8:40 pm. His body was in the ridge that either police was unsuccessful to bring his dead body in the safe place.

After hearing the news Jagat Damai immediately run to the incident place and shared about the training he has taken. After that he brought the rope and stretcher from the Kamkhet community and brought the death body barren land. "I was able to do with the help of skill and methods provided by CADRE training" He said. He thanks the BHAKARI program for conducting the training.

# IV. STRENGTHENING HEALTH INSTITUTIONS AND YOUTH NETWORKS TO REDUCE IMPACT OF COVID-19

Location: District (Municipality/ Rural municipality)	Kalikot (Suvkalika RM and Tilagufa M)
Duration	June 2021 to March 2022
Budget/Amount	NPR. 3,291,924.00
Beneficiaries Population	431 HHs
No. of Project Staffs	1
Development Partner	TDH Germany

### **Background:**

The program was designed during Global pandemic of novel corona virus disease 2019 (COVID-19) and Omicron is increasingly alarming. It was spread all over Nepal, with a rapid increase in the number of new cases and deaths, which was distressing in a low-income country with an inadequate healthcare system like Nepal. So, we were designed the project. Its main objective was to support rural health institutions and support to marginalize and COVID affected families.

### **Major Activities**

Project orientation and Meeting with R/Municipality and Community Level, Support items distribution, beneficiaries' finalization through coordination with LG and health institution.

- Supported to local needy people who could not get earn due to jobless and post COVID syndrome, were benefitted properly in time
- Altogether 431 marginalized and COVID affected needy families got emergency food and nutrition package, hygiene kits, nutritious foods and emergency kits for home isolation
- Health institutions also got the technology and heath items like Oxygen cylinder, Oxygen flow meter, IR thermometer , Pulse ox-meter, Sodium hydrochloride, Sanitize Spray tank , Surgical/ clothes Mask, protective material for health personnel
- Health institutions and local health service receivers also benefitted from the provided items

## V. ADAPTING TO CLIMATE INDUCED THREATS TO FOOD PRODUCTION AND FOOD SECURITY IN THE KARNALI REGION OF NEPAL

Location: District (Municipality/ Rural municipality)	Kalikot (Palata RM and Pachaljhrana RM)
Duration	October, 2018 to October, 2022
Budget/Amount	NPR. 44,685,688.00 (Annual)
Beneficiary Population:	5023 HHs
No. of CBOs/HHs M/F	5 UGs, 25 WEGs, 7 0 &M committees
No of Project Staffs	23
Development Partner	Nepal Government/ UN WFP

### Background:

The program is integrated into different components like livelihood, enterprise and infrastructure building. The main objectives of the project are to strengthen local capacity to identify climate risks and design adaptive strategies, to increase resilience of natural systems that support livelihoods to climate change induced stresses and to diversify livelihood and strengthened food security for climate vulnerable poor households in target areas.

### **Major Activities**

Infrastructure building, capacity enhancement training, NTFP cultivation and farming (apple, timur, citrus and walnuts) in agro-forestry modality, High tech nursery establishment, IEC material production and joint monitoring.

- Local Adaptation Plan of Action (LAPA) prepared and endorsed by the local government at municipal level for the first time at Palata and Pachaljharana rural municipalities.
- Generated short term employment opportunity for 1272 HHs
- Total 83.70% (18,838 plants are viable out of 22,505) saplings of different species (Bakaino, Eucalyptus, Epil-epil, Khote Sallo, Dhupi Sallo, Payeu, Churi, Masala, Kiwi and Citrus) have been established at the plantation site of Pachaljharana and Palata rural municipalities
- Total 501 cattles of 88 HHs were carried out insurance in Sikhar insurance company with support of CAFS-Karnali project. It will support to the vulnerable households to protect

their cattle from any kinds of natural disaster (3 HHs received the compensation from insurance company)

- IGA and more stable livelihood diversity option created to 2526 HH through Potato, Onion, Garlic, Ginger, Chilly, Sea buckthorn enterprise, Solar dryer and Food processing support, Onion processing enterprise and Kitchen garden.
- 2 agro nurseries have been established at both RMs for produce the seedling of vegetable and support to the vulnerable HHs for food diversity
- Total 27 user groups have been trained to build climate resilient infrastructures, 19 L/CFUGs have been trained and 7 L/CFUGs operational plan has been renewed.
- 21 Women lead entrepreneurs group formed and trained on business plan and Empowered female via different interventions supporting them in financial access, sustainability of the interventions as they have been continuing/scaling up those enterprise.
- 20 person with disabilities have been trained and starting their own enterprise on handicraft (*Hojiyari*)

# **CASE STUDY**

#### Successful Potato Farming at Palata

Chhatra Bahadur Karki, age of 56 is a permanent resident of Palata-1, set an example as an entrepreneur. He lives with his wife along with two daughters and two sons. He was engaged as a farmer from very long time and fulfill basic needs through farming. As he is from a poor family he did not had sufficient money to buy large quantity of seeds. So he used to do limited farming within limited amount. Since the CAFS-Karnali has implemented in his area, he was supported potato seeds in Kartik 2077.

Mr. Karki is very hardworking person and his keen interest in farming leads him to become a successful entrepreneur. He himself work in the field to bring a fruitful result and as we say "Hard work pays of it has paid off to him. He harvested 14 quintals of potato from his field and among these he sold three quintals in the local market at the price of NPR. 50 per kg. and earned total NPR. 15,000. He is still harvesting the potato and is ready to sell them on the local market. He is now able to run his household expenses easily than before. With his hard work and the satisfactory production of the potato, other people in his community are also motivated. He adds, "I am engaged in farming from a very long time but the production this time is much better than previous and I am very happy with production because it has enhanced my livelihood status and support for the education of children.

## VI. COMMUNITY BASED RED PANDA CONSERVATION IN WESTERN NEPAL

Location: District (Municipality/ Rural municipality)	Kailkot (Shubhakalika RM and Mahawai RM)
Duration	November, 2017 to December, 2025 (Annual)
Budget/Amount	NPR. 1,768,080.00 (Annual)
Beneficiary Population	4,180
No. of CBOs/HHs	1 CFUG Network, 4 CFUGs
No of Project Staffs	2
Development Partner	Red Panda Network USA, and Asia Branch in Nepal

#### **Background:**

The project has mainly focused on 4 themes viz research & monitoring, educational & outreach, Habitat management and sustainable development. The objective of the project is to raise awareness and strengthen capacity of local communities for of endangered species Red Panda (*Ailurus fulgens*). In addition, the project aims to conserve Red Panda populations and their forest habitat by restoring degraded forest patches, watershed and promoting red panda through research and monitoring, education and outreach, habitat management and sustainable livelihood promotion.

### **Major Activities**

Regular Monitoring of Red panda and their habitat, Carry-out Anti-Poaching Monitoring,

Training of Members of Anti-poaching, Presence Absence Survey, Radio Program, Support students in Red Panda Scholarship, Mini Eco-trip, World Environment Day, International Red Panda Day (IRPD), Produce and Install information Boards, Mapping of Deforestation Area and Plantation.

- CFUGs Network (N-1) was formed.
- Installed 7 Information boards for mass visible of project
- 3 hectares of degraded area was fenced and planted with 3,000 native species.
- Institutionalize by Indorsed red panda conservation issues in 5 OP of working CFUGs
- Identified 2 potential corridors among 5 & Restored 2 water sources within Lekh Daha
- ICS distributed to 17 HHs to reduce the pressure on forest deforestation along with promote the good health
- 2 eco-clubs with 541 students sensitized while outreached to about 4180 within 4 CFUGs.
- Identified potential suitable habitat for red panda in Kalikot is 711 sq.KM
- Support for 6 Forest guardians (2 female) for monitoring in 4 Community Forest.

# VII. SUSTAINABLE LIVELIHOOD AND BIODIVERSITY CONSERVATION IN REMOTE MOUNTAIN VILLAGES IN THE HIMALAYAS (SULABH) PROJECT

District (Municipality/ Rural municipality)	Humla (Odanchuli RM), Mugu (Soru RM), and Kalikot (Suvkalika RM)
Duration	May, 2020 to April, 2023
Budget/Amount	NPR. 26,430,177.00 (Annual)
Beneficiaries Population	7,500 (3750-female, children-1,000, youth-1,000 and farmers- 500) directly and 25,000 indirectly
No. of CBOs/HHs	45 CBOs (9 Cooperatives, 9 Women Groups, 9 Youth Clubs, 9 Child Clubs and 9 Agriculture Groups)
No of Project Staffs	14
Development Partner	TDH/BMZ Germany

### Background:

The project is integrated into livelihood support, green entrepreneurship promotion, Resource centers and capacity enhancement of CBOs/ clubs. The main objective of the project is to strengthen community through the sustainable use of natural resources and active self-help structures. However the specific objectives are to develop viable organization structure and promote environmental protection, biodiversity conservation and sustainable business start-up of Community-based organizations and cooperatives, to secure livelihoods through Forestry enterprises and sustainable commercial agricultural practices and to empower local agencies for representation political interests and involved in advocacy work of the project contents at local and national level.

20

### **Major Activities**

Formation of CBOs, Environment Campaign, green enterprise promotion, Capacity enhancement training, Farmers support, Establishment of nurseries and plantation of agro forestry, youth network and campaign, celebration of various days.

- 45 CBOs (2250 members) formed in which 42 CBOs Registered (9-cooperative, 9-women, 9-agriculture, 9-children and 9-youth) in local government
- Conducted and organized IWD, WED, IYD, I/ NCD, GAM activity. A total of 2278 (834 male & 1444 female) were involved during these events.
- Broadcasted 72 radio program through local FM contributed over awareness raising on their rights, roles and responsibilities, environmental and women rights, biodiversity conservation, empowerment, employment and green business etc.

- Conducted 126 Environment Education Trainings focused on food security, livelihoods, environmental protection, biodiversity conservation, resource use and the right to a healthy environment in various schools of RM.
- 3 nurseries were set-up and approximately, 76,000 seedling and sapling growing in the nurseries of 4 species like apple (*Malus domestica*), Timur (*Zanthoxylum piperitum*) walnuts (*Juglans regia*) and endangered species Satuwa (*Paris polyphylla*).
- Farmers are able to earn around NPR. 24,000 per year by selling the seedlings/ saplings from each nurseries
- Total of 11,000 high value agriculture seeds and seedlings (5000 seeds/6000 seedlings) of lemon, potatoes, tomatoes, legumes, onions, ginger, garlic etc. are growing by 300 HHs.
- 30 farmers have constructed plastic tunnels (Green House) and started organic vegetable cultivation and 15 farmers were benefitted with the beekeeping.
- 31.58 hector land has been irrigated with the help of 3 reservoir tanks benefitted 300 HHs.
- A total of 405 farmers started own business on farming and sell their products independently (without middlemen) in different market
- 2 multi-function centre (8\*16m) with sanitary and kitchen facilities was constructed in Kalikot and Humla district which has helped the CBOs and cooperative for monthly meeting and other community assemblies. It is also used for the storage of agricultural products.
- Conducted provincial policy dialogues to address the issues and challenges of local farmers and those issues were addressed.
- Guideline on sustainable agriculture and forestry was drafted by the local.
- Cooperatives were able to receive grant from DFO.

# **CASE STUDY**

#### Youth towards Policy Maker

Mrs. Srijana Shahi, a resident of Soru Rural Municipality, ward No: 01 was being limited to household activities. She had no idea about developmental activities working for youth in her locality. Thus she had never engaged in any youth and locality based activities and had never participated in any meeting and interaction program. She had neither knowledge about youth's right nor sustainable livelihood and campaign related to youth. Additionally, at the beginning she was introverted and stay inside vail and was not able to explore herself.

After the formation of *Samaj Rupantaran Batavaran Sanksharacharn* Youth Club under the sustainable livelihood and biodiversity conservation in remote mountain villages in Himalayas (SuLaBH) project funded by tdh/BMZ Germany under the technical assistance of HuRENDEC Nepal, Kalikot implemented by Malika Community Development Center, Mugu. Mrs. Srijana was elected as a treasury of the respective youth club formed under the project at Ward 01.

Once she herself involved in the youth club, she got information about youth rights and responsibilities along with needs of youth in society development . Moreover, she got an opportunity to attend monthly meeting and activities related to youth participation to change society for sustainability and also involved herself in different youth campaign and youth day celebration. Furthermore, she had received the environmental training which emphasized on youth participation in environmental conservation. Nevertheless, born in such brassbound society who let women in household activities only. She has been elected as ward member and later she has been elected as Executive members of Rural Municipality through recent election 2079 (Karyapalika Sadasya). Now, she started accumulating challenges and opportunities of her municipality in order to address in local level and also, she is continuing herself engaging in youth club activities delivering awareness that accentuate youth participation and involvement for sustainability to rest of the youth club members.

Mrs. Srijana Shahi stated "because of various awareness campaign, training, lobbying and advocacy implemented by Malika Community Development Center based on SuLaBH project is much more effective which leads to boost my confidence due to which now let myself came out of veil despite of many challenges and came so long from shy person who was not able to explore herself to an elected local representative. And because of many youth campaign organized by the project, I am able to speak among the large group which would not have been possible regardless the project intervention.

# VIII. TRAIL BRIDGE SUB- SECTOR (TBSU)

Location: District (Municipality/ Rural municipality)	All 10 District of Karnali province
Duration	July 2005 to July 2023
Budget/Amount	NPR. 58,434,000.00 (Annual)
Beneficiaries Population	13,458 (6,254-male, 7204-female)
No. of CBOs/HHs	5 UCs / 2,248 HHs
No of Project Staffs	2
Development Partner	TBSU HELVETAS/ Local Government

#### **Background:**

The project has been done as per the demand and requirement of local government. We are working in each R/Municipalities of Kalikot disctrict. The objective of the project is to provide technical and social support for trail bridges to local governments and user committees.

### **Major Activities**

Survey, Design estimate, Technical supervision for Trail Bridge, technical support to bridge, monitoring, coordination with local government and support for bridge maintenance.

- 5 new Trail Bridges building completed in this year
- 2 DPR preparation for trail bridge
- 5 Maintenance support for Trail Bridges
- Updating data and information in program monitoring information system (PMIS) and trail bridge strategy information system (TBSIS)

# IX. INTEGRATED WATER RESOURCE USER MANAGEMENT PLAN (IWRMP)

Location: District (Municipality/ Rural municipality)	Kalikot (Raskot, Khadachakra, Naraharinath and Suvakalika)
Duration	1st Jan 2006 till now
Budget/Amount	NPR. 7,907,890.00 (Annual)
Beneficiaries Population	2,507 HHs
No. of CBOs/HHs	24 (Water user management committee)
No of Project Staffs	10
Development Partner	HELVETAS Swiss Inter cooperation Nepal

### **Background:**

The program has mainly 5 components namely drinking water, sanitation & hygiene, irrigation, 3 R (reuse, recycle and reduce) and water governance & advocacy. The main objective of the program is to provide clean drinking water, to support local government for formulation of water user master plan (WUMP), to promote WaSH and capacitate community members upon WaSH sector.

### **Major Activities**

Construction of drinking water scheme, support for WUMP preparation and implementation, conduct WaSH related activities, water quality test and capacity enhancement training.

24

- Drinking water access to 2,507 HHs.
- Initiated to declare total sanitation area (5+1indicators) in 2 wards of Naraharinath RM.
- Community people practiced on WaSH (1,460 HHs installed filter, 2,400 HHs use dry rack and 796 household used waste disposal pit)

- Drinking water facility in 13 school benefitted 777 Students.
- Broadcasted informative message regarding WaSH through Local FM.
- Water user members are able to operate and manage operation and maintenance fund.
- Water user management committees are registered at Suvakalika municipality.
- Conducted 17 water scheme survey which will be benefitted 1,444 HHs

# **CASE STUDY**

#### **Child-Friendly Tape in School**

Shree Saraswoti Basic School located in Narharinath Rural Municipality Ward No.8 of Kalikot District where 130 students comprise 80 male and 83 female are learning. The place can be reached after walking about 3 hours from the ward office. Earlier, cotton is highly cultivated in this place and settlements are seasonal. Later they started to live permanently but the water availability in this place was limited. People used to collect water from rivers and some springs for drinking which is not hygenic.

After some year people living seasonally started to settled permanently and established Shree Saraswati Basic School for their children in the year 2056 BS. Before that, the students were taught in the school ground. Since the school building is built the toilet facility was lack. After some time, the toilet is built but still the water facility is lack. Students used to walk for about 20 minutes to drink water and had to wait for some time, which affected their studies. The female students were directly impeding in the mensuration period; they have to leave the classes due to unavailability of water. Similarly, most of the time of the office assistant had to spent for collecting drinking water.

Currently, the financial support from the HELVETAS Nepal's and technical support from Human Rights Development Center (HURENDEC) Nepal, Integrated Water Resources Management Program - IWRMP) has been implemented as Kabda Balde drinking water and sanitation plan dated 2077/10/2. After completion of such plan in 2078/3/21, One home One Tap plan in the community, tape in community institutions, health post, ward office, as well as in schools are managed, Similarly, 2 child-friendly taps have been constructed in this Saraswati Basic School in agreement with the Water Construction and Sanitation Plan. At present, students are using such toilet regularly. They are now able to drink clean water along with the habit of washing hands with soap regularly. Since it is easier for female students to come to school regularly and sanitary during menstruation, the rate of absenteeism of female student has decreased and the issue of water for school assistant have become easier.

# **Program under Joint venture/ consortium**

### I. TA SUPPORT FOR IMPLEMENTATION OF TRAIL BRIDGE SUB SECTOR PROGRAMME/TB SWAP FRAMEWORK (PTAP) - KARNALI PROVINCE

#### **Background:**

TBSWAp program has been implementing in all 10 districts of Karnali Province since April 2018 to till now with the support of TBSU HELVETAS till December, 2021 as first phase and support from Karnali Province government since January 2022 as second phase. The program is implemented through JV partners. HuRENDEC Kalikot is as Lead partner and SEBAC Kailali is as associate partner for implementation this program. The objective of the project is to provide technical and social support for trail bridges to local governments, local service providers (NGOs) and user committees (UCs).

### **Major Activities**

Bridge planning, Survey & Design, Inspection of steel parts, UC Formation, UC Meeting, Demonstration Model Bridge Training (DMBT), Project Book, Workforce Insurance, Employment to Disadvantaged Groups (DAGs), Equal pay for equal work, Quality control of construction materials, Monitoring quality of Construction Works, Final Inspection, Load Test, Punctual support, Updating PMIS, Updating TBSIS, Physical Progress Report, Expenses Report, Monitoring and Reporting of Maintenance, Bridge Condition Investigation (BCI), Palika / Province Bridge Record (P/SBR), Palika/ District Bridge Directory (P/DBD), Routine Maintenance Training (RMT), Capacity Building.

#### **Major Achievements**

- Constructed 77 trail bridges
- 61 DPR prepared and accepted in 38 R/Municipalities
- Provided technical assistance to 254 bridges

### II. TA SUPPORT FOR IMPLEMENTATION OF TRAIL BRIDGE SUB SECTOR PROGRAMME/TB SWAP FRAMEWORK (PTAP) - SUDUR PASCHIM PROVINCE

#### **Background:**

TBSWAp program has been implementing in all 9 districts of Sudur Paschim Province since December 2021 to till now. The program in implemented through 3 JV partners. Api

Power Point is as lead partner and HuRENDEC and SEBAC Kailali is as associate partner for implementation this program. The objective of the project is to provide technical and social support for trail bridges to local governments, local service providers (NGOs) and user committees (UCs).

#### Major Activities

Bridge planning, Survey & Design, Inspection of steel parts, UC Formation, UC Meeting, Demonstration Model Bridge Training (DMBT), Project Book, Workforce Insurance, Employment to Disadvantaged Groups (DAGs), Equal pay for equal work, Quality control of construction materials, Monitoring quality of Construction Works, Final Inspection, Load Test, Punctual support, Updating PMIS, Updating TBSIS, Physical Progress Report, Expenses Report, Monitoring and Reporting of Maintenance, Bridge Condition Investigation (BCI), Palika / Province Bridge Record (P/SBR), Palika/ District Bridge Directory (P/DBD), Routine Maintenance Training (RMT), Capacity Building.

## III. WATER USER MASTER PLAN (WUMP)

#### **Background:**

This program has been since June 2022 till December 2022 through the support of USAID/ DAI-Karnali Water Activity. The program is implemented through 5 Consortium members. DMI is as lead member and other SUPPROS, Sundar Nepal, NEWHA and HuRENDEC are associate consortium members. The objective of the project is to prepare and endorse Water user Master plan through local government.

#### **Major Activities**

Consultation meeting, training, conduct workshop, resource mapping and policy development.

### IV. COMBATING AGAINST CHILD MARRIAGE AT KARNALI PROVINCE

#### **Background:**

This program has been implementing in all 10 Districts of Karnali province since June 2022 to till now through the support of Fastenaktion. The program is implemented through 10 consortium members. AAWAJ Surkhet is taken lead coordination role to its members. HuRENDEC is district focal member for Kalikot district. The main objective objective of the project is to prevent child marriage in Karnali Province.

### **Major Activities**

Advocacy, lobby, IEC material production, Consultation meeting, training, conduct workshop, and policy/ guidelines development.
